

NEED RESEARCH?

Are you looking to enhance a grant proposal, budget request or public policy document? Do you need background information to prepare for a public meeting?

Palm Beach County Library System's FREE Community Research Service pairs professional librarians with your nonprofit organization or government agency to distribute information that meets your needs!

OUR LIBRARIANS CAN:

- Investigate and perform literature reviews of best practices nationwide for your field of work.
- Offer workshops on our online research resources or computer programs.
- Provide in-depth and on-demand demographic and statistical research findings.
- Prepare executive summaries of local, state and national sources to support your work.
- Enhance any document with our access to online resources like peer-reviewed journal articles, business and city directories, historical and aerial maps, Florida state codes, statutes and ordinances and much more!

We offer these services remotely from one of our 17 library locations and can provide onsite consultation upon request.

For more information and to get started, contact us at communityresearch@pbclibrary.org.
